

CarbonFoam PVC 60

CarbonFoam PVC 60 is Italian made grade A closed cell 4 lb density structural core material in 45.5X96.5 sheet size, up to 3" thickness. Immediate availability from our inventory in scored, grooved, perforated, rigid configurations. Save up to 50 % compared to several other brands with extensive lead times. Request a sample from our website. CNC kit cutting available with small minimum order quantity requirements.

HOW WE DO THINGS

Carbon-Core Corp.

Carbon-Core Corp. manufactures rigid foam sheets in rigid closed cell PVC(60-180 kg density), PIR/PU(1.5-28 lb density),PE (80-160 kg density) Phenolic (2-10 lb density)in 48X96 sheet sizes, up to 29" thickness. We ship most orders in 24 hours from our vast inventory. Perforation, scrimming, grooving, cnc cutting all done in house in USA.

North American Composites

CarbonCore Products are distributed nationwide by North American Composites. NAC is one the largest composites distributors in North America serving thousands of customers.

NAC provides its customers with local service through its distribution centers in the U.S. and Canada. Their warehouses maintain inventories of all materials necessary for composites manufacturing: resins, gel coats, fiberglass, initiators, adhesives, cores, putties, and other composites materials. NAC sales representatives are some of the most knowledgeable in the industry and most are CCT certified.
